

Technology Service and Consulting

Why Hire an Outside IT Consultant?

- To gain external, more objective advice and recommendations
- To gain access to the consultant's specialized expertise
- Simply as temporary help during a one-time project, where permanent employees aren't required
- To outsource all or part of your Information Technology needs

Be2X's 5 Basic Principles

- Focus on the relationship: Understanding the personality and expectation of the client, client's organization, and all stakeholders involved
- Clearly Defined Role: Defined roles and responsibilities for both client, other stakeholders, and consulting team.
- Visualize Success: Helping the client see the end at the beginning
- We advise, you decide: Client is the best person to decide
- Be Oriented Towards Results: Ensuring that the solution addresses end user concerns, user training, implementation, and maintenance constraints
